MACK Companies, a rapidly growing full service real estate organization in the Chicago area, is posting brisk sales for its Estates single-family homes division.

MACK Estates offers quality redeveloped single-family homes in prime locations throughout city and suburban communities. A wide selection of homes ranging in size from 1,400 square feet to more than 4,000 square feet can meet the needs of consumers from first-time home buyers to those seeking the most luxurious homes.

"More buyers than ever are turning to the MACK Estates professional team for experts in providing quality homes," said Victor Gutierrez, managing broker and executive director of Oak Park Avenue Realty, a MACK Companies affiliate who handles Estates sales. "The Estates team has more than 30 years of experience in home design and construction, and understands what today's home buyers are looking for in terms of location, style and updated inclusions. They have a carefully developed program for selecting sites and properties."

MACK Estates homes are located in communities that have strong infrastructures, active and engaged local

government dedicated to community preservation, easy access to major roads and award-winning public schools. A current partial list includes Beverly, Mount Greenwood, Clearing and Archer Heights in the southwest suburbs, Belmont, Dunning, Elmwood Park and Schaumburg to the north, Villa Park, Lombard, Elgin and Aurora in the western suburbs, and Cicero, Berwyn, Evergreen Park and Flossmoor to the south. The redevelopment process on a home begins with a skilled team of sales and interior design specialists who walk every home to ensure that all improvements made to a floor plan are ideal for living convenience and increased property values. All building codes are strictly adhered to, and improvements and repairs are made by local electrical, plumbing and HVAC professionals who share a work ethic based on attention to detail and respect for the communities they serve. Bedrooms and baths may be added to meet or exceed MACK Companies three-bedroom, two-bath minimum. Buyers can be confident that the MACK Estates home they purchase will be a sound investment, a source of pride and a solid, comfortable place to live.

MACK Companies also has single-family homes for rent in several communities, and luxury townhomes for sale at Fay's Point in Blue Island. For more information, visit [www. MACKCompanies.com](http://www.MACKCompanies.com).
