

Fast Fifty 2014 No. 12: MACK Industries

By: Crain's Chicago Business | June 2, 2014

While the real estate recovery has been slow to positively impact many firms, MACK Companies has been strategically growing its business over the past five years, increasing revenue by 1,100 percent. That exceptional growth landed the firm a spot on this year's "Fast Fifty" list by Crain's Chicago Business, which notes the fastest-growing businesses in the Chicago area. In fact, MACK Companies ranked 12th, and was the top-ranked real estate firm on the list. While much of this growth was achieved through its MACK Investments division - a leading provider of turn-key single-family investment properties, which currently manages more than 1,200 homes in the Chicago area - today the firm boasts several integrated businesses:

- MACK Construction, a premier developer of public and private projects throughout Chicago
- MACK Commercial, delivering prime retail, office and industrial space to Chicago's south suburbs
- MACK Estates, offering quality new construction and redeveloped for-sale housing
- RentMACK, a leading provider of affordable, redeveloped rental housing
- Oak Park Realty, an experienced commercial and residential brokerage firm.

The firm's diversified services makes it well positioned for continued growth. For more information, please visit mackcompanies.com.

What it does: Investment property development and management • **How it grew:** Bought low and sold high • **Location:** Tinley Park • **Local employees:** 38 • **Worldwide employees:** 38 • **Profitable?** Yes • **2013 revenue:** \$47.1 million • **Five-year growth:** 1,101%

CRAIN'S FAST FIFTY 2014

Fast 50 businesses are ranked by five-year revenue growth. But this handy spreadsheet allows you also to sort this list by industry, revenues or the number of local employees. If you're searching for one company in particular, type the name into the search box.
